WO 2005/039465 PCT/GB2004/004265

1 CLAIMS

2

A dressing comprising a bandage section, having a
 perimeter sufficient to occlude a wound, and a valve

section that allows the escape of fluid, wherein the

on the same plane

7 as the bandage section.

8

9 2. A dressing, as in Claim 1, wherein the bandage 10 section comprises a transparent area.

11

12 3. A dressing, as in Claims 1 or 2, wherein an outer

edge of the bandage section is provided with

14 adhesive.

15

16 4. A dressing, as in Claim 3, wherein the adhesive is

17 covered with a removable protective outer film prior

18 to use.

19

20 5. A dressing, as in Claims 1 to 4, wherein the valve

21 section comprises a one-way valve.

22

23 6. A dressing, as in Claims 1 to 5, wherein the one-way

valve comprises a flutter valve.

25

26 7. A dressing, as in Claim 6, wherein the flutter valve

27 comprises one leaflet.

28

29 8. A dressing, as in Claim 6, wherein the flutter valve

30 comprises two leaflets.

31

WO 2005/039465 PCT/GB2004/004265

A dressing, as in any of the previous Claims, 1 9. wherein the one-way valve is housed in a 2 substantially rigid casing. 3 4 A dressing, as in any of the previous Claims, 10. 5 wherein the bandage section is substantially 6 elliptical or circular in shape. 7 8 A dressing, as in any of the previous Claims, 9 11. wherein the bandage section is provided with an 10 extending tag section allow for easy gripping. 11 12 A dressing, as in any of the previous Claims, 13 12. wherein the valve section can be provided with a 14 collection bag. 15 16 A dressing, as in any of the previous Claims, 17 13. wherein the dressing is manufactured from a 18 19 waterproof material. 20 A dressing, as in any of the previous Claims, 21 14. wherein the dressing is manufactured from non-22 23 allergenic material(s). 24 15. A dressing, as in any of the previous Claims, 25 wherein the dressing is manufactured from a plastic 26 material. 27 28 A dressing, as in any of the previous Claims, 29 16. wherein the dressing is manufactured from latex. 30 31

16

WO 2005/039465 PCT/GB2004/004265

1	17.	A dressing, as in any of the previous Claims,
2		wherein the valve section is provided with an
3		irrigation flushing system.

4

18. A dressing, as in Claim 16, wherein the irrigation flushing system comprises an aperture in the casing of the valve section through which fluid can be

8 inserted.

9

10 19. A dressing, as in Claim 17, wherein the flushing system comprises a tube and a valve.

12

13 20. A dressing, as in Claim 19, wherein the tube is 14 provided with perforations.

15

16 21. A dressing, as in any of the previous Claims,
17 wherein the bandage section further comprises one or
18 more membrane layers.

19

20 22. A dressing, as in Claim 21, wherein, in use, air or 21 fluid is provided between the layers, such that 22 tension is applied to a wound.
